

# Preschool ADHD Study

Sharon Wigal, Ph.D. and researchers at AVIDA are seeking children ages 4-5 to participate in a study examining the effects of an investigational medication on ADHD symptoms in young children.

## Seeking participants who:

- Are 4 or 5 years old
- Are overactive and impulsive
- Are very easily distracted and can't complete tasks

## Volunteers who qualify will receive:

- ADHD evaluation at no cost
- Investigational medication at no cost
- Compensation for time and travel

## For further information please contact:
