

ADHD Tustin Adult Presentation

Wednesday, March 18, 2020
7:00 - 9:00 pm

“A Looking Glass into Our ADHD Journey“

**Presented by: Alecia Benson, Ed.S., LEP #3983 & Elizabeth
Villa**

Yes, even ADHD specialists can be diagnosed! Come listen to Alecia as she unfolds her story about her adult diagnosis and the strategies, she uses to balance a successful and striving business, as well as family home life.

"You do what for living?" Elizabeth Villa shares her perspective on finding out that the career she loves wasn't on the list of being ADHD compatible.

Alecia has spent the last 12 years working in school districts and is currently employed as a School Psychologist in one of Orange County's leading school districts. In addition, she is also a Licensed Educational Psychologist and runs her own private practice, Wize Owlz Learning LLC, supporting children with learning disabilities, Autism, and ADHD through counseling and family support.

Elizabeth Villa's return to higher education netted her an ADHD diagnosis, the opportunity to be accepted by a community of diverse thinkers, and a BS in Accounting. She's supports the Neurodiverse community through sharing her story whenever it might bring enlightenment.
